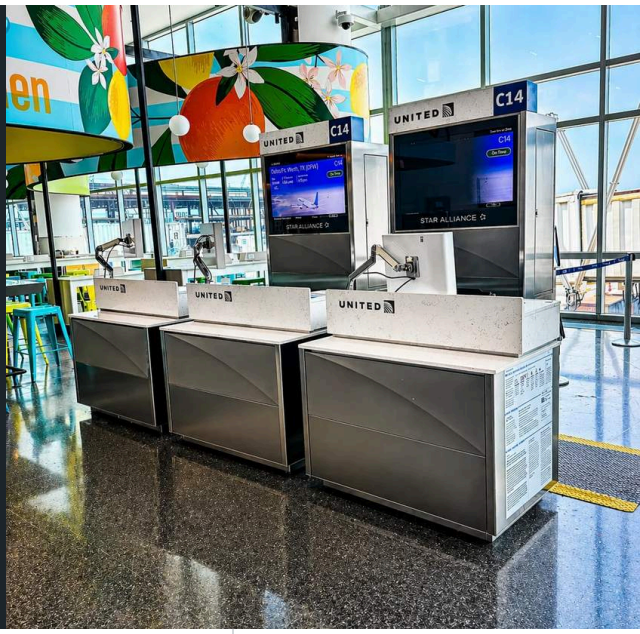
AIRPORT MILLWORK AND METAL

Commercial millwork for airports.

Airport counters, podiums and casework, built to last. We build millwork and metal side by side in our 60,000 sq ft Houston shop, and our own badged crews install it in airports across the US.

Approved vendor for United Airlines and Southwest Airlines



35+	300+	60,000	6–12
Years of experience	Airports served	Sq ft shop in Houston	Weeks typical lead time

CORE CAPABILITIES

01 Airport counters
Ticket, check-in and boarding counters, with the millwork and stainless trim made under one roof.

02 Gate podiums
Gate podiums built to match the counters in the same terminal.

03 Commercial casework
Breakroom cabinets, lockers, workstations, service counters and storage.

04 Architectural metal fabrication
Stainless steel trim, cladding, frames, kickplates, guards and rails, made in-house.

05 Millwork installation
Installed by crews we manage and supervise, who fit the millwork and metal together on site.

06 Pre-construction support
Budget pricing, design-assist, shop drawings and submittals to approval.

WHY GENERAL CONTRACTORS AND AIRLINES CHOOSE US

01 **Airline approved.** Approved vendor for United Airlines and Southwest Airlines, with work at 300+ airports.

02 **Our own badged crews.** SIDA-badged, background-checked installers with airport security experience.

03 **Night and phased installs.** Night shifts and phased installs in active terminals, on the airline's schedule.

04 **Millwork and metal under one roof.** Made side by side in one shop, so the parts fit on site.

05 **Safety first.** OSHA compliant, with OSHA 30-trained supervisors.

06 **Ready to bid.** Bonding available. Prequalified on BuildingConnected and Procore.
